

Grow your savings with our **Access Accumulator**

BUILD A SOLID FINANCIAL FUTURE FROM AS LITTLE AS R500.

Big dreams? Start off small. We'll help you grow your money so you can make them come true!

Access Accumulator is African Bank's flexible investment product. The interest rate increases each month for the duration of the investment term. Thus, the longer you keep the Access Accumulator investment, the greater the return.

Unlike a Notice Deposit account, where you have to give a 7, 32 or 90 days' notice before withdrawing your funds, Access Accumulator gives you access to your money at any time, either partially or fully, within 24 hours.

FEATURES:

- Get access to your money at any time, either partially or fully, within 24 hours. No fees.
- Interest rate will increase with 0.15% every month.
- A minimum opening amount of R500 is required.
- No additional deposits can be made into the account.
- Interest pay-out will only take place on expiry, or when withdrawal is requested.
- Statements can be emailed to you monthly, or are available on request from our contact centre or online.
- After 24 months, the investment matures and you may consider re-investment options or pay-out.

HOW IT WORKS:

- You can open your account at one of our Branches, or online at www.africanbank.co.za. You will then receive a Proof of Application document, as well as an SMS with your reference number..
- The deposit can be made via debit order or EFT.
- An SMS will be sent once your deposit has been received by African Bank.
- A change in the Reserve Bank interest rate will not affect the rate structure of the Access Accumulator investment during the term.
- Interest can either be paid on expiry or full withdrawal, whichever occurs first.
- To view the most up-to-date rates, visit africanbank.co.za or speak to your Branch consultant.
